The iconic Notre-Dame Cathedral in Paris is getting ready to reopen next month after more than five years of closure.

巴黎著名的聖母院大教堂即將在下個月重新開放，結束長達五年多的閉館期。

The cathedral - one of the most famous buildings in the world - closed in 2019 when it caught fire, causing major damage and resulting in a repair cost of €700m (£582m).

這座世界上最著名的建築之一於2019年因火災而關閉，火災造成嚴重損壞，修復費用高達7億歐元（5.82億英鎊）。

"People will discover the splendor of the cut stone, [which is] of an immaculate whiteness such as has not been seen in the cathedral maybe for centuries", an insider of the Elysée closely involved with the restoration said.

一位與修復工作密切相關的愛麗舍宮內部人士表示：「人們將會見證切割石材的輝煌，其潔白無瑕的狀態可能是數世紀以來首次在大教堂內呈現。」

An official "entry" into the cathedral will take place on 7 December and the first Catholic mass will happen the next day.

官方的「入堂儀式」將於12月7日舉行，隨後的第一場天主教彌撒將於次日舉行。
